

1969 ARTICLE INDEX

MANAGEMENT

- Mr. Manager—Profit Is Your Responsibility, Pt. 1, Jan. p. 16
 Mr. Manager—Profit Is Your Responsibility, Pt. 2, Feb. p. 20
 Updating Assembly Foremen, Feb. p. 24
 The Role of Production Control in Cost Control, Pt. 1, Mar. p. 18
 PAMCO—An Adventure in Hope, Mar. p. 22
 The Role of Production Control in Cost Control, Pt. 2, Apr. p. 20
 Effective Incentive Systems, May p. 20
 Time Clocks Out—Improved Employee Relations In, June p. 20
 A 10-Step Program to Revitalize Incentive Plans, July p. 20
 Standardization—Key to Cost Savings, Aug. p. 20
 CALB Systematic Assembly Management, Sept. p. 20
 Data Communication System Updates Production Scheduling, Sept. p. 26
 Visual Assembly Aids Improve Operator Efficiency, Oct. p. 24
 A Case Study in Streamlining Job Shop Assembly Operations, Nov. p. 20
 Value Engineering—Creative Cost Reduction, Dec. p. 20

FASTENING & JOINING

- Frontiers in Fastener Design, Pt. 1, Jan. p. 24
 Frontiers in Fastener Design, Pt. 2, Feb. p. 28
 How to Determine Hole Size for Thread-Forming Screws, Mar. p. 28
 What's Wrong with Fastener Specifications, Apr. p. 32
 Design Considerations for Weld Fasteners, May p. 32
 Reflections, Technicalities, and Smith-Kabobs, May p. 38
 Fastener Coating Solves Difficult Corrosion Problem, June p. 32
 Reflections, Technicalities, and Smith-Kabobs, June p. 36
 Taking the Mystery out of Screw Thread Forms, July p. 30
 Reflections, Technicalities, and Smith-Kabobs, July p. 34
 An Evaluation of Test Methods for Fastened Assemblies, Pt. 1, Aug. p. 30
 An Evaluation of Test Methods for Fastened Assemblies, Pt. 2, Sept. p. 34
 Assembly Simplification with Torque-Tension Nomograms, Oct. p. 36
 Reflections, Technicalities, and Smith-Kabobs, Oct. p. 41
 Pressure-Sensitive Films Join Dissimilar Materials in Product Assembly, Nov. p. 30
 Welding Distortion—and How to Control It, Dec. p. 30

FASTENING & JOINING IDEAS

- Retain Shafts with Rubber "O" Rings, Feb. p. 33
 Insulation Cutting Nut Strips Wire, Feb. p. 33
 Bonding with Electrostatic Force, Mar. p. 34
 Three Unique Uses for Wire-Formed Retaining Rings, May p. 39
 Stepped Knurled Bolt Assures Parts Alignment, Oct. p. 42
 Hose and Tube Coupling Provides Leakproof Joint, Nov. p. 33

ELECTRICAL/ELECTRONIC ASSEMBLY & PACKAGING

- Microsoldering Techniques, Pt. 2, Jan. p. 32
 PC Board Solderability Program Improves Reliability and Reduces Costs, Pt. 1, Feb. p. 40
 PC Board Solderability Program Improves Reliability and Reduces Costs, Pt. 2, Mar. p. 40
 PC Board Solderability Program Improves Reliability and Reduces Costs, Pt. 3, Apr. p. 46
 Process Control Key to Reliable Wave Soldering, Pt. 1, May p. 50
 Process Control Key to Reliable Wave Soldering, Pt. 2, June p. 40
 Selecting IC Packages, July p. 40
 Improving Connector Selection, Aug. p. 40
 Numerical Controls, Automatic Welding Update PC Process, Sept. p. 46
 WESCON 1969, Oct. p. 46
 Secret of Profitable Automatic Assembly, Built-In Flexibility, Nov. p. 38
 Packaging Hybrid Circuits, Dec. p. 38

ELECTRICAL/ELECTRONIC ASSEMBLY IDEAS

- Numbered Wires, New Symbol System Speed Module Wiring, June p. 46
 Close Tolerance Tubing Facilitates Bonded Relay Inner Shell, Aug. p. 45
 Punching of Two-Sided PC's Replaces Costly Drilling, Sept. p. 52
 Polysulfone Carriers Protect Integrated Circuits, Oct. p. 52
 Half-Punched Holes Aid Assembly Alignment, Oct. p. 52
 Unique Carousel Line Aids Harness Assembly, Nov. p. 42

ASSEMBLY SYSTEMS

- Dispensers for One-Component Thermosetting, Jan. p. 40
 Thermoplastic Fender Liner Used on 1969 Oldsmobiles, Feb. p. 50
 Fuel System Subassemblies Soldered Automatically, Mar. p. 52

- Drape Forming May Cut Cost of Large Titanium Aircraft, Apr. p. 58
 Vibratory Parts Feeders, May p. 62
 Automated Soldering and Brazing, June p. 54
 Corvette Fastening Designs, July p. 52
 The Nuts and Bolts of Automatic Assembly, Aug. p. 52
 Specialized Riveting with Standard Heads Reduces Assembly Costs, Sept. p. 60
 Hot Melt Adhesive Used in 1970 Auto Lamps, Oct. p. 58
 Aluminum Dip Brazing Finding New Uses in Volume Assembly, Nov. p. 48
 Short-Run Assembly CAN Be Efficient, Dec. p. 48

ASSEMBLY SYSTEMS IDEAS

- CAT—Computerized Assembly Faultfinder, Feb. p. 54
 Semiautomatic Assembly Machine Inserts Control Knob Clips, Mar. p. 56
 N/C Drilling Machine Assemblies and Machine Bearing, Apr. p. 62
 Heat-Activated Dry Film Adhesive Solves Aircraft Production Problem, May p. 68
 Automatic Assembly Equipment Counteracts Labor Shortage, June p. 59
 N/C Drilling Machine Assemblies and Machines Bearings, July p. 58

AUTHORS

- Thomas Alchin
 Automated Solder and Brazing, June p. 54
 Omer Blodgett

Olson has a new address

65 Industrial Drive, Holden Industrial Park, Holden, Mass. 01520 (617) 829-6361

Olson has built and moved into a brand-new, one-story manufacturing plant in Holden Industrial Park. Engineered work flow throughout 100,000 square feet of space assures efficient, low-cost production of your precision parts.

More than 80 modern screw machines, with capacities up to 2½" diameter in all machinable alloys. A wide variety of secondary operation equipment such as drilling and tapping machines, centerless grinders, borers. Over one million pounds of raw materials in stock.

Put Olson's over 55 years of experience and new, expanded facilities to work for you. Send for brochure.
